JED CREATIVES highly embodies the professionalism and high-quality commissions that is qualified in every viewer's eye. We value creativity and symbolism in each workpiece by fulfilling our purpose to send message through visuals and arts. We create with reason, passion, and skills that is worthy to share with the public.

portfolio.

Hi, I'm Jameel Belza

A Filipino visual artist – currently based on Vietnam. For almost three years of producing in the creative field, I am dedicated to bring high-quality visuals that elevates public standards – passionate enough to satisfy the client's vision. As a visual artist, I worked with various fields such as publication, organizations, producer teams, and business collaboration that sharpen my skill and explore the broad sector of media. Driven by determination, I learned the skills self-taught and understood how every program and system works, including web development. An artist not only skilled on design, but also on scripting, storytelling, and message intent delivered on every content I produce.
